February/2015

We newly released several fluorimetric intracellular nitric oxide (NO) assay kits. They are sensitive tools to detect/monitor intracellular NO level in live cells.

[CA-N300 \(orange fluorescence\)](#) is optimized for fluorescence imaging & microplate reader applications;

[CA-N305 \(orange fluorescence\)](#) and [CA-N325 \(red fluorescence\)](#) are optimized for cytometry applications.
