

New Product Release 2016

July,

Quick Links

**Frontline Infectious
Disease Products**

HIV Research

**Influenza Virus
Research**

**SARS-CoV (Beijing)
Spike Protein**

We newly released several products related to the Middle Eastern Respiratory Syndrome Coronavirus (MERS-CoV). The C-terminal 6x His tagged recombinant viral proteins are purified from human 293 cells so they are properly glycosylated.

[MERS-RBD-005P](#), receptor binding domain of MERS CoV spike protein (aa 358-588);

[MERS-S1-005P](#), full length MERS CoV spike S1 (aa 18-725) protein;

[MERS-S1-015](#), anti-S1 (MERS-CoV) rabbit polyclonal antibody.

FYI, we also have several anti-S1 (MERS-CoV/HCoV-EMC/2012) monoclonal antibodies:

[MERS-S1-001](#) [MERS-S1-005](#) [MERS-S1-006](#)
