

## Anti-CHIKV E1 Polyclonal Antibody

CATALOG NUMBER: CHIKV-E1-014

|                     |                                                                                                               |
|---------------------|---------------------------------------------------------------------------------------------------------------|
| <b>Applications</b> | WB (1:500-1:2000), IHC (1:50-1:500), and ELISA (1:5k-1:20k). May be used for other applications.              |
| <b>Description</b>  | Rabbit polyclonal antibody against E1 glycoprotein of Chikungunya virus (strain S27-African prototype)(CHIKV) |
| <b>Purification</b> | Purified by antigen affinity column                                                                           |
| <b>Host Species</b> | Rabbit                                                                                                        |
| <b>Isotype</b>      | IgG                                                                                                           |
| <b>Storage</b>      | Store at -20 to -80°C; Stable for 1-months from the date of shipment when kept at 4 °C.                       |
| <b>Size</b>         | 100 µg in 0.01M PBS (pH7.4), 50% glycerol, 0.05% Proclin 300.                                                 |
| <b>Purity</b>       | >90% by SDS-PAGE                                                                                              |

**WB:**

1, Recombinant E1 protein (CHIKV)
