
Goat Anti-Mouse IgG (H+L) Secondary Antibody (FITC)

CATALOG NO. GM-FITC

Product Description	Peroxidase-conjugated goat anti-mouse IgG (H+L) secondary antibody
Lot Number	F-406EY
Size and Concentration	100 µg in 0.01M Sodium Phosphate, 0.15M NaCl, 1% BSA, 0.05% Sodium Azide pH 7.2
Applications	FC, IF, IHC, etc. The optimal working dilution should be determined by the end user based on the applications (1;20-1:2000).
Specificity	Reacts with heavy chains on mouse IgG and light chains on all mouse immunoglobulins. No antibody was detected against non-immunoglobulin serum proteins. Cross reactivity with immunoglobulins from other species not tested.
Purity	The antibody was purified from antisera by immunoaffinity chromatography using mouse IgG (H+L) coupled to agarose beads
Storage	Store at -70 °C; Do not freeze and thaw. Stable for at least one months from the date of shipment when kept at 4 °C. Non-hazardous. No MSDS required.
Usage	This product does not contain livestock or poultry disease agents, non-toxic/non contagious and is not intended for Mouse use, only for laboratory research and development.
