

hCD317 (Δ TMs)

CATALOG NUMBER: IV-317-005P, 50 μ g

Description	Recombinant C-terminal 6xHis-tagged ectodomain of human CD317 (Tetherin) protein (amino acid 24-162), purified from transfected 293 cells. CD317 has been recently demonstrated to cause retention of retroviral virions on cell surfaces.
Application	Interference of Vpr/CD317 interaction, Western blot standard, etc.
Storage	Store at -20 °C; Stable for 6-months from the date of shipment when kept at 4 °C. Non-hazardous.
Concentration	1 mg/ml in PBS
Purity	\geq 95% purity (SDS PAGE)

SDS-PAGE: purified hCD317 (Δ TMs)
