

## hCD317 ( $\Delta$ TMs)

CATALOG NUMBER: IV-317-005P, 50  $\mu$ g

<b>Applications</b>	Interference of Vpr/CD317 interaction, Western blot standard, etc.
<b>Description</b>	Purified protein from transfected 293 cell culture.
<b>Viral Protein</b>	6xHis tagged ectodomain of human CD317 (Tetherin) protein (amino acid 24-162). CD317 has been recently demonstrated to cause retention of retroviral virions on cell surfaces.
<b>Storage</b>	Store at 4 °C; DO NOT FREEZE; Stable for 1 year from the date of shipment. Non-hazardous. No MSDS required.
<b>Concentration</b>	1 $\mu$ g/ $\mu$ l in PBS with less than 0.1% BSA and 25% glycerol.
<b>Specificity</b>	$\geq$ 95% purity (SDS PAGE).

E: purified hCD317 ( $\Delta$ TMs)
