

Anti-Ectodomain of Glycoprotein (Rabies Virus)

CATALOG NUMBER: RA-001-0100, 100 µg

Applications	Western blot (1:200-1:1000) and ELISA, may be used for other applications.
Description	Rabbit polyclonal antibody.
Immunogen	<i>in vivo</i> expressed ectodomain of glycoprotein (GP) of Rabies virus (Genebank No. EU311738).
Specificity	Reacts with glycoprotein from Rabies virus. Cross reactivity with glycoprotein from other Rhabdoviruses not tested.
Purification	Immunoaffinity chromatography.
Isotype	IgG.
Storage	Store at 4 °C; DO NOT FREEZE; Stable for 1 year from the date of shipment. Non-hazardous.
Concentration	2 µg/µl in PBS with less than 0.1% gelatin and 0.1% sodium azide.

C: 293 cell extract control
1: 293 cell expressing glycoprotein of Rabies virus
